TION BILL, FISCAL YEAR 1922.

JANUARY 6, 1921.—Committed to the Committee of the Whole House on the state  
of the Union and ordered to be printed.

---

Mr. WOOD of Indiana, from the Committee on Appropriations,  
submitted the following

REPORT.

[To accompany H. R. 15543.]

The Committee on Appropriations submit the following report in  
explanation of the accompanying bill making appropriations for the  
legislative, executive, and judicial expenses of the Government for  
the fiscal year ending June 30, 1922:

ESTIMATES, FISCAL YEAR 1922.

The estimates upon which this bill is based are to be found in the  
Book of Estimates, fiscal year 1922, pages 9 to 203, inclusive, and  
aggregate \$136,452,634.97.

APPROPRIATIONS, FISCAL YEAR 1921.

The total appropriations made for the fiscal year 1921 for the  
objects or purposes estimated for in connection with or provided  
for in the accompanying bill are as follows:

Legislative, executive, and judicial appropriation act.....	\$104,749,326.11
Sundry civil appropriation act.....	1,458,000.00
Deficiency appropriation acts.....	363,284.00
Army appropriation act.....	1,636,600.00
Indefinite appropriation for "Expenses of loans" in Liberty and Victory loan acts (estimated).....	10,250,000.00
Total appropriations for 1921.....	118,457,210.11

## APPROPRIATIONS RECOMMENDED IN THE BILL FOR 1922.

The total amount recommended to be appropriated in this bill for the service of the fiscal year 1922 is \$112,705,748.75. This sum, compared with the estimates for the fiscal year 1922 and the appropriations for the fiscal year 1921, shows the following differences:

It is \$5,751,461.36 less than the appropriations for the fiscal year 1921; and

It is \$23,746,886.22 less than the amount requested in the estimates for 1922.

The committee recommends a change in the appropriation for the additional compensation (\$240 bonus), referred to elsewhere in this report, whereby such compensation shall not apply during the next fiscal year to employees whose pay is adjustable from time to time by wage boards or similar authority to accord with commercial rates paid locally for the same class of service. It is impossible to estimate the exact amount which will be saved thereby, but it can be fairly stated to be approximately \$15,000,000. While this sum does not appear in the total of the bill it represents that much of a decrease in the amount which might be expended from the indefinite appropriation for the payment of the increased compensation and can be accurately denominated a reduction. The total reduction in this bill, therefore, under the appropriations for 1921, combining the reduction of \$5,751,461.36 in the tabulated total and the \$15,000,000 estimated reduction in the indefinite appropriation for increased compensation is \$20,751,461.36. It should be borne in mind in connection with the net reduction of \$5,751,461.36 in the tabulated total of the bill that it has been effected notwithstanding an increase of \$10,000,000 has been recommended in the items for the Internal Revenue Service. If the increase for this particular service is eliminated, it will be seen that there is a total reduction in all the other 1921 appropriations of \$30,751,461.36.

## COMPARISON OF 1922 RECOMMENDATIONS WITH 1916 APPROPRIATIONS

The legislative, executive, and judicial appropriation act for the fiscal year 1916 aggregated \$36,910,799.75. The amount recommended in the accompanying bill (\$112,705,748.75) exceeds the 1916 appropriations by \$75,794,949. This excess is composed principally of a few large items, such as the following: \$7,250,000 for expenses of handling loans issued during the war period, \$7,145,400 for the Bureau of War Risk Insurance, \$40,246,000 for expenses of the Bureau of Internal Revenue in collecting internal revenue, \$6,500,000 for enforcement of the national prohibition act, and approximately \$4,000,000 for expenses of fiscal and accounting offices of the Treasury Department. Eliminating from consideration these unusual items brought into existence as direct result of the war, the increase of this bill over the 1916 act is approximately \$10,000,000.

## CHANGES IN CURRENT APPROPRIATIONS.

A comparative statement is submitted in this report (pp. 23 to 63) showing in detail the appropriations for the fiscal year 1921, the estimates for the fiscal year 1922, the amounts recommended in the accompanying bill for 1922, the increase or reduction in the amounts

for the fiscal year 1921 as compared with the amounts recommended in the bill for 1922, and the increase or reduction of the amounts estimated for 1922 as compared with the amounts recommended in the bill.

The paragraphs of substantive legislation and the principal paragraphs of limitation upon appropriations are also set forth in this report on pages 19 to 22.

The changes in specific employments and the principal reductions in current appropriations are set forth in the following paragraphs:

## SENATE.

The officers and employees of the Senate are specifically appropriated for in the amounts and at the rates of pay carried in the current legislative, etc., appropriation act, with the exception of the session employees, who are provided for the next regular long session instead of for the present short session.

The total of appropriations for the Senate is reduced from \$2,251,351.50 to \$2,109,707.50, or by \$141,644. This reduction is due to the decrease in amounts for contingent expenses of the Senate.

## HOUSE OF REPRESENTATIVES.

The officers and employees of the House of Representatives are provided for in the amounts appropriated for the fiscal year 1921, or under resolutions of the House, with the following exceptions:

The session employees of the House are appropriated for in the same numbers and at the same rates of compensation for the next regular long session instead of for the present short session.

Two bookkeepers at \$2,400 each are provided for in the office of the Sergeant at Arms instead of a bookkeeper at \$2,200 and a financial clerk at \$2,700.

A paragraph is recommended requiring the postmaster at Washington to convey the mail of the House of Representatives between the city post office and the post office of the House of Representatives and the appropriation for carrying the mail of the House of Representatives is reduced from \$4,200 to \$600.

The appropriation of \$6,000 for the purchase of packing boxes is eliminated.

The total of appropriations for the House of Representatives is increased from \$5,764,845.25 to \$5,765,410.25, or a net increase of \$565.

## LIBRARY OF CONGRESS.

The total of appropriations for the Library of Congress is reduced from \$721,025 to \$713,025, or by \$8,000, due principally to the completion of certain special improvements for which appropriations were provided for the current fiscal year.

## BOTANIC GARDEN.

The lump appropriation for temporary employees is reduced from \$402,500 to \$250,000, or by \$152,500, and the limitation on the rates of compensation to be paid therefrom is changed so that number who may be employed at rates of compensation exceeding \$1,800 is reduced from 22 to 8.

The appropriation of \$7,500 for salaries and expenses of the passport bureau at San Francisco is omitted.

Appropriations for such purposes have been provided during the fiscal year 1921 and prior fiscal years from the indefinite appropriations carried in each of the Liberty loan acts and the Victory loan act. The legislative, etc., appropriation act for the current fiscal year repealed those indefinite appropriations, and it therefore becomes necessary to provide a specific sum in this bill for such expenses. The amount estimated to be expended during the current fiscal year for purposes for which specific appropriation is recommended in this bill is approximately \$10,250,000, which sum is \$3,000,000 less than the amount carried in the bill. A limitation upon salaries is recommended prohibiting the employment of anyone in excess of \$3,500 and not more than 61 persons at varying rates of pay from \$1,800 to \$3,500.

*Division of Mails and Files.*—The pay of a messenger boy is increased from \$360 to \$600.

*Contingent expenses, Treasury Department.*—A net reduction under current appropriations is made of \$41,701.36, principally due to reduction in the appropriation for rent of buildings. Provision is also recommended for the transfer from the War Department of three light motor trucks.

The total appropriations for the Treasury Department proper is reduced from \$30,094,581.36 to \$23,187,970, or by \$6,906,611.36.

#### INTERNAL REVENUE.

The appropriation for collecting the income and excess-profits taxes and other miscellaneous revenue is increased from \$21,000,000 to \$30,000,000, and the appropriation for the enforcement of the national prohibition act and the narcotic act is increased from \$5,500,000 to \$6,500,000. The total increase in internal revenue appropriations is \$10,000,000.

The estimate of the Bureau of Internal Revenue for collecting income and excess-profits taxes is \$33,000,000. The bureau at the present time has requested a deficiency estimate for the remainder of the current fiscal year of \$9,000,000. If this sum should be allowed, the total for that purpose for 1921 would be equivalent to the amount of \$30,000,000 recommended in the bill for the next fiscal year. It is expected by the bureau that the audit of the 1917 returns will be completed about the time of the expiration of the statute of limitations on March 1, 1921. The 1918 and 1919 returns remain to be audited and the 1920 returns are about to come in. The bureau estimates that a careful audit of the 1918 returns, in which probably are reflected the maximum war profits, will reveal a very large amount of additional revenue. The increase in the appropriation is recommended to provide additional auditors and clerks to expedite the examination of these returns. It is estimated that the present organization of the bureau is collecting approximately \$35,000,000 additional revenue monthly and that the employment of additional auditors and clerks will considerably increase this amount.

## SUBTREASURIES.

The appropriations for the maintenance of subtreasuries at Baltimore, Boston, Chicago, Cincinnati, New Orleans, New York, Philadelphia, St. Louis, and San Francisco, aggregating \$463,740 and providing for 319 statutory positions are eliminated. The total reduction under 1921 appropriations, including the elimination of the sum to defray expenses incident to the discontinuance, is \$755,740.

## MINTS AND ASSAY OFFICES.

The appropriation for mints and assay offices is reduced from \$1,709,100 to \$1,502,800, or by \$206,300. This reduction is partly effected by the decrease in the amounts for the employment of personal services at the various mints. The following offices are recommended to be omitted:

Carson, Nev., mint.....	\$7,700
Deadwood, S. Dak., assay office.....	7,200
Salt Lake City, Utah, assay office.....	3,900

*Office of Chief of Air Service.*—The appropriation for this office for the current year is provided by allotment of funds from the appropriation in the Army act for the Air Service. The amount so allotted is \$920,000. The amount recommended in the bill is \$415,000, composed of \$350,000 of direct appropriation and \$65,000 by allotment from funds carried in the Army act. The reduction in this bill under the current appropriations is \$505,000.

*Quartermaster General's Office.*—No change is recommended in the current statutory roll. The sum for additional employees is reduced

from \$370,940 to \$250,000, or by \$120,940. A paragraph is recommended authorizing the use during 1922 of \$180,000 of funds appropriated for bringing home remains from abroad for the employment of personal services in the Cemeterial Division of the Quartermaster General's Office in connection with that work. The allotment for similar purposes for the current year is provided in the sundry civil act in the sum of \$250,000. *Office of Chief of Finance.*—The appropriation for employees in this office is reduced from \$510,040 to \$325,000, or by \$185,040.
